IBRAHIM KHAN

Full Stack Developer

ABOUT ME

As an accomplished Full Stack Developer with a specialized focus on the MERN stack—comprising MongoDB, Express.js, React, and Node.js—I bring forth a wealth of expertise in crafting sophisticated and high-performance web applications. My commitment lies in engineering robust, scalable, and user-centric solutions that transcend conventional standards. I am driven by a passion for leveraging cutting-edge technologies and meticulous attention to detail to create seamless and intuitive digital experiences. With a proven track record in developing intricate backend functionalities and seamlessly integrating them with dynamic frontend interfaces, I am poised to contribute innovative solutions and elevate the digital landscape.

WORK EXPERIENCE

Silver Oak Health

02/21 - 05/21

Full stack Developer Intern

- Collaborated extensively with a diverse development team to ensure cohesive project execution.
- As a Full Stack Developer intern, my responsibilities encompassed orchestrating seamless integration between backend functionalities and frontend interfaces, contributing to the creation of a unified and responsive web ecosystem.

SKILLS SUMMARY

Frontend 8/10

Backend 7.5/10
