SUMMARY

Skilled Full Stack Developer with four years of experience in MERN stack development. Demonstrated success in creating scalable web applications that feature optimized performance and responsive design. Expertise in developing RESTful APIs, managing databases, and implementing contemporary front-end solutions. Possesses strong problem-solving skills and excels in collaborative efforts within agile environments.

WORK EXPERIENCE

Full Stack developer, Dreamcare Developers   **Sept 2021 - Present**

- Independently developed, coded, modified, and debugged application programs of varying complexity.
- Improved user experience by creating responsive web designs that ensure seamless compatibility across devices.
- Conducted code reviews, identified bugs, and resolved issues effectively.

Full Stack Developer Intern, Silver Oak Health   **Feburary 2021 - April 2021**

- As a Full Stack Developer intern, I was responsible for facilitating smooth integration between back-end functionalities and front-end interfaces.
- I played a key role in building a cohesive and responsive web ecosystem, developing functional databases, applications, and servers to support the websites on the back-end.
